(b) Describe any record evidence, monument evidence, occupational evidence, testimonial evidence or any other material evidence you considered, and whether the monument was found or placed.

I set a 2" iron pipe with a brass cap at equal distance between the northwest and southwest corners of Section 31 and on the town line established from the east 1/4 corner and northeast corners of Section 36, T6N, R9E. This location fell in a fence corner north, south and east. There was a very old 1 1/4" inside diameter iron pipe leaning against corner post. Measurements match W. L. Marcy survey in Blue Book Surveys volume 5, page 274.

(c) CORNER LOCATION SKETCH: In the sketch, provide reference ties to at least 4 witness monuments of lasting durable material.

(d) The sketch shall include physical features surrounding the monument location sufficient to easily find the monument when in the general area, such as but not limited to utility poles, signs, trees, edges of forests or cropland, field lanes, water bodies, pavement, buildings, etc. Sketch shall also indicate north and scale, and include descriptions of symbols, in sketch or by legend.

Bearings are grid based on the Dane County coordinate system designed by the Wisconsin Department of Transportation. NAD83 (2011)

○ Denotes set 3/4" x 24" solid round iron rod.

I set a 2" iron pipe with a brass cap at the corner.

Scale: 1" = 40'

OPEN PRAIRIE

WOODS
