Hi Brittany, Jess and Jim,

Brittany McCoy requested DNR to make a navigability call and whether shoreland zoning should apply to her property as outlined on the attached map (7741 State Rd 69 Belleville). I am hereby providing related information.

Wendy Peich and I looked at the mapping and aerial photos for this location and although the USGS map has a dashed line suggesting intermittent stream within the property, DNR is hereby making a determination that there is no navigable stream within this property. DNR has not identified the specific point of navigability for this tributary but it appears to be more than 300 feet south of this property. I believe that this determination will help to provide Dane County additional information to aid in its administration of its shoreland zoning ordinance.

Have a great day!

Eric,

I very much appreciate your quick response on this! Have a wonderful week.
