RE: Navigability Determination – County Highway G, Section 34, Town of Springdale

The Dane County Zoning Division has conducted a navigability determination for an unnamed intermittent stream that is located to the east and parallel to County Highway G in section 34 of the Town of Springdale. The upstream extent of this determination begins on parcel 0607-342-8311-9, with the downstream extent at the stream's intersection with State Highway 92.

Before conducting a site inspection, aerial photos and Dane County GIS were used to determine the categorization of this waterway. An intermittent stream is one that has a periodic or recurrent flow. A site inspection was conducted on September 13, 2016. It was observed that the mapped stream did not exhibit a defined bed or banks and lacked the presence of standing or flowing water.

After further review of the waterway, it has been determined that this intermittent stream is NOT navigable from its origin at least to a point where it intersects with State Highway 92.

This determination has been made for Dane County Zoning compliance purposes only. For navigability determinations related to State or Federal permitting, concurrence of this determination will need to be made by the Wisconsin Department of Natural Resources.

I hope you find this information helpful. If you have any questions regarding this matter, or if I may be of further assistance, please feel free to contact me directly.

Sincerely,

Hans Hilbert
Assistant Zoning Administrator
