RE: Navigability Determination – 6663 County Highway K, Section 26, Town of Springfield;
Intermittent Tributary to Dorn Creek

The Dane County Zoning Division is in receipt of your request for a navigability determination for an unnamed intermittent stream that is located south of County Highway K and east of US Highway 12 in section 26 of the Town of Springfield.

The latest data from County GIS, Google Maps, Bing Maps, and USGS 24k Topographic maps were analyzed in making this determination. The map shows that there is an intermittent stream that may be located on or near the property. An intermittent stream is one that has a periodic or recurrent flow.

After further review of the waterway, it has been determined that this intermittent stream is NOT navigable west of the farm road located east of the residence at 6663 County Highway K continuing south bisecting the farm fields. The portion of this stream east of said farm road is considered navigable beginning at the farm road and continuing east and north to a point of confluence with Dorn Creek. Any further analysis of this waterway will require a field inspection during the growing season.

This letter serves as notice that the property located at 6663 County Highway K is partially within the shoreland zoning district. Based on this determination and the description of your proposed shed location, south of the residence and west of the existing corn bins, your proposed shed will not be subject to shoreland zoning regulations and it will fall outside of 300 feet from the navigable portion of the stream.

I hope you find this information helpful. If you have any questions regarding this matter, or if I may be of further assistance, please feel free to call me at (608) 266-4993.

Sincerely,

Hans Hilbert
Assistant Zoning Administrator
