RE: Determination of Ordinary High Water Mark – Lake Harriet

Thank you for your request for a determination on the ordinary high water mark of Lake Harriett in section 9 of the Town of Oregon. On September 11, 2020 a site inspection was made and the high water mark determined. The elevation was staked on the property. Based on the location of the ordinary high water mark, and the site plan submitted with the request, the proposed development will be well beyond the required 75 foot setback to the Lake.

While the proposed development will meet the required setback to Lake Harriet, it is still subject to shoreland zoning regulations and a shoreland zoning permit will be required from this Department.

If you have any questions or comments regarding this determination, do not hesitate to contact me.

Sincerely,

Hans Hilbert
Assistant Zoning Administrator
County of Dane
